

Diamond Compound

Poly Polish Diamond Gel (Water & Oil Soluble)

- Unique Gel Consistency.
- Water and Oil Soluble.
- Corrosion Inhibitor.
- Premium Diamond.

Poly Polish Diamond Gel is formulated with top quality diamond abrasive, a proprietary corrosion inhibitor, and high performance polymers that provide the smooth consistency of oil without the mess. Due to its unique gel consistency, Poly Polish immediately adheres to the surface and quickly and evenly wets out for aggressive yet consistent polishing. Available in 10 and 20 gram syringes.

Grade Number	Color	Grain Size Micron	Grit Size	10 Gram		20 Gram	
				Part Number	Price	Part Number	Price
